# 5265

## ROLL PAPER TOWEL DISPENSER

### DESIGN CONSIDERATIONS

- Epoxy coating of the 5265 prevents oxidation over a period of time, as well as providing a smooth finish for easy cleaning.

### FINISH (select one)

- Silver Epoxy (standard)
- Other (additional charge; see Finish Schedule, Reference Section A, for options)

### OPERATION

Dispenser accommodates standard perforated paper towel rolls up to 6" (152mm) in diameter. Limited rocking dispensing action allows half turns only then returns roll for next sheet delivery. Spindle is spring locked to discourage theft and abuse.

### SUGGESTED ARCHITECTURAL SPECIFICATION

TSM model 5265 Roll Paper Towel Dispenser from Tubular Specialties Manufacturing, Inc., Los Angeles, California, (213) 515-4801. Construction: cast aluminum alloy. Finish: \_\_\_\_\_ (select from Finish Schedule). Capacity: one paper towel roll up to 6" (152mm) in diameter. Manufacturer's name is not shown on any exposed surface.

### MATERIALS/WORKMANSHIP

**Dispenser**—Die cast aluminum alloy. Dispenser and spindle are held together with a spring-loaded steel pin.

### INSTALLATION

Dispenser is surface mounted. Position spindle release pin on right. Towels should be installed with sheets hanging from top and front of roll to ensure proper limited dispensing action. Screws are provided by manufacturer (see Installation, Reference Section C, for various applications).
