Closet Rod System models _____ shall be manufactured by Tubular Specialties Manufacturing, 13011 South Spring Street, Los Angeles, California 90061, tel (800)Grab Bar.

Installation

It is the installer's responsibility to select fasteners that are appropriate for the wall condition and application. It is important to evaluate wall conditions because an accessory is only as strong as its anchoring devices and the wall on which it is mounted;

adequate wall reinforcement or stud structure is required. TSM offers optional fastener kits. All accessories should be inspected periodically to make sure their attachment to the wall is not loosening.

Manufacturer reserves the right to alter design or dimensions without formal notice and without incurring obligation.

The TSM Closet Rod System is guaranteed against defects in workmanship and material for one year from shipping date.
