

Stainless steel type 304 Field-Safe accessories are vandal resistant because fasteners are concealed with a snap-lock flange. The unique patented fastening system does not use set screws which require periodic tightening, thereby reducing maintenance in the field. Because of its one-piece design, Field-Safe accessories can be installed in approximately 1/3 less time than is required for conventional, multi-piece set screw accessories. The 2" x 2" x 18 gauge (51 x 1.2 mm) square Field-Safe flange coordinates with TSM's FS-1 line of grab bars and shower rods for a unified washroom design.

PATENTED

801 Single Roll TP Holder
